# CLAY COUNTY BROADBAND PROFILE

FCC Reported Unserved Locations

Count of Unserved

Percent Unserved

High   High

Low   Low

Unserved Locations from the FCC Broadband Data Collection have been aggregated into hexagon-shaped bins to show both the count and percent of unserved locations within each bin. Darker shades of pink indicate higher total counts of unserved locations. Darker shades of blue indicate a higher percentage of locations within a bin are unserved. Darker shades of purple indicate both a higher total of unserved locations and a higher percentage of total locations within a bin are unserved.
